Your information helps to make decisions on...

...which services are needed and where they should be, such as hospitals, kōhanga reo, schools, roads, public transport, and recreational facilities.

The census is the official count of how many people and dwellings there are in New Zealand. It is used by councils, community groups, iwi, and businesses to plan for the future.

Information from the census helps determine how billions of dollars of government funding is spent in the community.

and more...

Note: This infographic was developed to illustrate key results of the 2013 Census using the concept of New Zealand as a village of 100 people. All results have been calculated from the total population of New Zealand. This data has been randomly rounded to protect confidentiality. Individual figures may not add up to totals.
