# Total underutilisation March 2023 quarter, seasonally adjusted $^{(1)(2)(3)}$

#### Footnotes:

- 1. No seasonal pattern is evident for available potential jobseekers. Therefore, this series is not seasonally adjusted.
- 2. Due to rounding, changes do not always sum to the published totals.
- 3. All changes are quarterly.

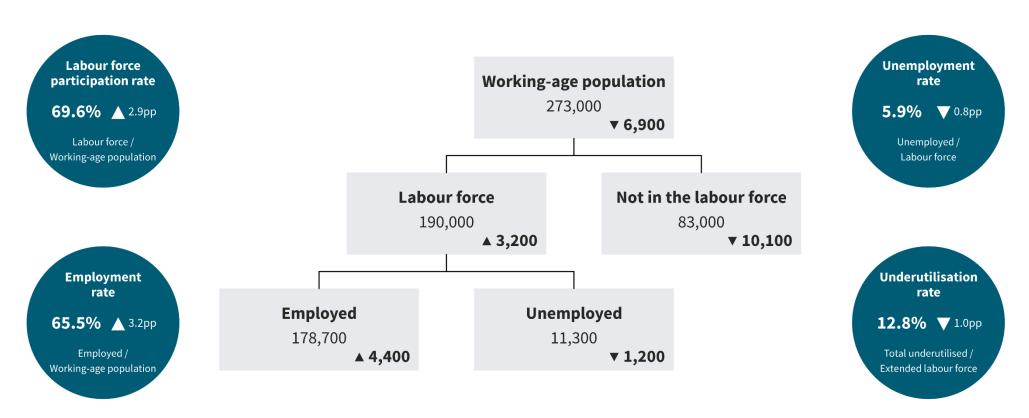

### **Labour market summary – Māori** March 2023 quarter<sup>(1)(2)(3)</sup>

### **Footnotes:**

- 1. Changes are annual and not seasonally adjusted.
- 2. The only statistically significant changes in this diagram are the increases in number of people in the labour force and the number of people unemployed. Other changes are not statistically significant because they are less than the sampling error. Note that the change in the working-age population is always significant as one of our benchmarked measures.
- 3. Due to rounding, changes do not always sum to the published totals.

## **Labour market summary – Pacific peoples**March 2023 quarter<sup>(1)(2)(3)</sup>

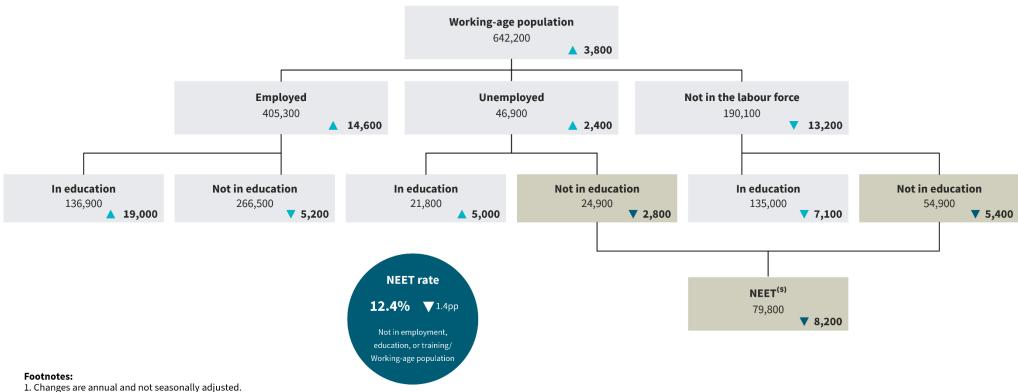

### Footnotes:

- 1. Changes are annual and not seasonally adjusted.
- 2. The only statistically significant changes are the increase in labour force participation rate and employment rate.

  Other changes are not statistically significant because they are less than the sampling error. Note that Pacific peoples' working-age population is not benchmarked.
- 3. Due to rounding, changes do not always sum to the published totals.

### Labour force and education status of people aged 15–24 years March 2023 quarter $^{(1)(2)(3)(4)}$

- 2. All changes (except for unemployed in education and employed in education) are not statistically significant because they are less than the sampling error for that change. Note that the change in the working-age population is always significant as one of our benchmarked measures.
- 3. Due to rounding, changes do not always sum to the published totals.
- 4. Those who have not specified an education status are included in the totals only.
- 5. NEET refers to those people aged 15–24 years not in employment, education, or training.
